

# Hirniak Olena

## Junior Full Stack Developer

### Summary

I'm a junior full stack to the IT field, I can confidently say that I have many skills in web development, I am creative, communicative, a quick learner and responsible for my work. I use libraries and frameworks to implement projects.

### Project Experience

#### -WebStudio-

[ HTML, SCSS, JS ]

GitHub

The first fully written website in html and css from scratch. A webstudio where you can find effective solutions for your business, order services, learn about the team that will help you and see the portfolio of offers.

**Role:** Developer.

#### -BOOKSTORE-

[ HTML, Parcel, SCSS, JS ]

GitHub

A bookstore with a variety of authors and genres. Using responsive layout, modal windows, a site system for saving purchased books, attractive design, and fast content loading.

**Role:** Scrum Master, developer.

#### -IceCream-

[ HTML, Parcel, SCSS, JS ]

GitHub

Website of a company producing ice cream from natural products. Using responsive layout, modal windows, functionality for easy navigation and attractive design.

**Role:** Developer.

#### -HealthyHab-

[ HTML, module CSS, JS, Redax, React, MongoDB, Swagger, Render ]

GitHub

Keep track of your health, water and calorie consumption, set a goal and confidently go for it. Use of adaptive layout, modal windows, a full-fledged database with saving and changing user information, the ability to register, attractive and simple design, display of consumption tips based on user data.

**Role:** Scrum Master, developer.
